SETTORE 11° LAVORI PUBBLICI, MANUTENZIONI
Servizio Lavori Pubblici

COMMITTENTE: COMUNE DI BARLETTA

IMPORTO LAVORI: € 8.377,10 di cui € 2.484,66 per oneri della sicurezza

RUP: GEOM. MARCO SANTECCHIA

PROGETTISTI : ING. ANGELO DI NAUTA
GEOM. GIOVANNI ANDRIOLO

TAV. 1

Technical drawing of a concrete structure, likely a foundation or a wall section, showing a central column and a top section. The drawing includes dimensions and labels for various components.

Labels and dimensions:

- profondità di scavo** (excavation depth): Indicated by a vertical dimension line on the left, with a value of **2.98**.
- tappeto di usura** (wear mat): Indicated by a horizontal dimension line at the bottom, with a value of **3.00**.
- strato sottostante basolato** (underlying paving layer): Indicated by a horizontal dimension line on the right, with a value of **0.25**.
- rete elettrosaldada diametro 6mm maglia 100x 100mm** (electrowelded mesh diameter 6mm grid 100x 100mm): Indicated by a horizontal dimension line on the right, with a value of **2.02**.
- clis gettato in opera** (cast in place concrete): Indicated by a horizontal dimension line on the right, with a value of **0.20**.
- delineatori flessibili omologati** (flexible delineators): Indicated by a horizontal dimension line on the right, with a value of **0.20**.

Technical drawing of a drainage system cross-section. The drawing shows a series of yellow rectangular drainage units (pavimenti pre-quadrati) separated by black lines, mounted on a brown base. A red frame (archetto) is shown over one unit, with a blue line indicating a height of 0.00. A dimension of 2.61 is shown for the width of the frame. A dimension of 2.00 is shown for the width of the drainage unit. A dimension of 56.00 is shown for the total length of the section. Labels include: 'pavimenti pre-quadrati 100mm x 50mm per drenaggio', 'marciapiede esistente', 'bullone con lucchetto', 'archetto parasporale a protezione chiusura laccato pitturato a smalto bianco rosso', and 'isola pedonale esistente'.
